

# Codesys

Codesys is a Finnish software house specialised to J2EE technology and application integration. Our experience and knowledge enable organizations to successfully implement J2EE and integration solutions.

## What we can offer?

Codesys offers senior technical consultancy. Codesys consultant is always certified and has many years of experience in various real life projects. This kind technical expertise and real life experience is valuable in all the project phases. Codesys consultant can be the key person of your project and act as project manager, technical architect or designer.

## Why Codesys?

Codesys is fully independent of the system software vendors. A Codesys consultant can therefore offer objective technical advisory. The solutions we build are also based on standards and design patterns making them easier to maintain. These facts combined with our technical expertise and experience enable us to build solutions that will meet to your needs.

Please do not hesitate to contact us for more information!
